Hung Vuong (Vương Hùng)

Software Engineer

Results-driven Full-Stack Software Engineer with 5+ years of experience in enterprise and freelance environments. Proficient in .NET, Java, and modern JavaScript frameworks (React, Angular, React Native), with a strong track record integrating third-party APIs (AWS, PayPal, Blockchain) and maintaining high-availability systems. Actively applies AI tools and Prompt Engineering to accelerate development and improve code quality.

WORK EXPERIENCE

DSOFT Software, Trung My Tay Ward

Enterprise software outsourcing, automated systems, and high-availability digital solutions.

.NET Developer 08/2023 – Current

- Developed automated data synchronization tools using ASP.NET and SQL Server for large-scale data systems.
- Architected and implemented features using ABP Framework and Oracle, enhancing internal project efficiency.
- Collaborated directly with clients to analyze requirements and propose technical solutions, reducing delivery time.
- Integrated automated notification/SMS modules across mobile and social platforms.
- Maintained and upgraded legacy systems ensuring 99.9% uptime and zero impact on live operations.
- Applied Prompt Engineering and AI tools (ChatGPT/Gemini/Claude) to accelerate development cycles, refactor legacy code, and maintain high-quality documentation for complex .NET and React/Angular architectures.

TMA Solutions, District 12

Providing outsourcing services to leading companies worldwide.

Software Engineer 05/2021 – 07/2023

- Built robust backend systems using Spring Framework and integrated AWS S3, PayPal, and Social Login APIs.
- Developed Admin Dashboards with ReactJS, optimizing project architecture for better maintainability.
- Built responsive website for CMS systems using Umbraco .NET, supporting multi-language content.
- Developed a React Native application with EtherJS for Ethereum blockchain interactions.
- Enhanced iOS card recognition modules using Objective-C/C++, achieving >95% accuracy compared to original images.

VietInfo Corp, Binh Thanh District

Specializing in enterprise software development and digital transformation services.

UI Engineer | Frontend Developer 02/2016 – 08/2020

- Led the frontend development for web and mobile products using Angular, Xamarin .NET, and Ionic.
- Designed User Flows and mockups using Figma/Adobe XD to streamline user interaction.
- Built dynamic WebForms and templates on ASP.NET MVC and DotNetNuke platforms.
- Troubleshot and optimized frontend performance for diverse enterprise clients.

SKILLS

Back-end Frameworks:
- ASP.NET / .NET Core
- ABP Framework
- Umbraco .NET
- DotNetNuke
- Spring Framework
- NodeJS

Front-end Frameworks:
- React/NextJS
- Angular
- Webpack/Vite
- Tailwind
- jQuery

Databases:
- Oracle
- MySQL
- PostgreSQL
- SQL Server

Server Environments:
- Linux, Nginx Server
- Windows, Microsoft IIS

Tools and AI Productivity:
- Docker
- Cloudflare
- VS Studio, VS Code
- Figma
- Git, SVN
- Microsoft Teams
- ChatGPT, Gemini, Claude
- Antigravity, Codex GPT

Soft Skills:
- Analytical Problem Resolving
- Agile/Scrum
- Cross-functional Collaboration

Languages:
- Vietnamese (Native)
- English (Pre-Intermediate)

EDUCATION

HUTECH University
Software Development
Binh Thanh District, HCMC
09/2017 –06/2021

FPT Polytechnic
Software Applications
District 3, HCMC
09/2013 – 09/2016

FREELANCE EXPERIENCE

I-DAC VN Marketing Agency | Web Developer 07/2025 – 03/2026

Mentored and supervised 1 junior developer, conducting code reviews and ensuring delivery standards across multiple landing page projects.
